

COBRACO®

Hi-Test Lawn Edging & Bed Divider

Our top of the line lawn edging and bed divider is designed with the Landscape Contractor and knowledgeable Homeowner in mind. This, our heaviest piece of edging, is guaranteed against cracking or lifting out of the ground.

The materials and design have been created to maximize ease of installation, produce flexibility and allow creative free flowing bed designs, as well as straight lines.

Features:

- Structural integrity allows the edging to fulfill its patented features.
- No stakes are necessary nor recommended. Therefore, no liability to you and complete safety for the user.
- Specially formulated plastic U.V.I. resins and design to prevent cracking, creating an edging with superb flexibility and long life.
- Easy installation allows Hi-Test to become a quick and permanent part of walk-ways, lawns and bedding areas.
- Comes packaged in convenient handling and storage bundles of ten (10) pieces each, in twenty (20) foot lengths.
